

Pack Wars

How we play:

- * There is over \$1,000.00 in prizes!
- * Pack Wars consists of 25 rounds
- * The 25 rounds are comprised of:
 - 19 Pack War rounds
 - 4 Auction Rounds
 - 2 Trivia Rounds
- * The winner of each round selects a box number between 1-30 from the prize board and receives the prize written inside that box. The more rounds that you win, the more prizes you receive!
 - To win a Pack War round; buy pack(s) from that round and look for the designated statistic (e.g. most yards rushing last year). Whoever has the player with the best statistic wins. In the event of a tie, use your 2nd best total. This is where buying multiple packs is to your advantage. You keep all of the cards you purchase.
 - To win an Auction round, simply have the highest bid for the item being auctioned. You win the item for your bid amount PLUS a prize # from the board.
 - To win a Trivia round, be the first with the correct answer to our trivia question. This round is free to play for everyone! The winner selects a prize # from the board.

Once the 25 rounds have been completed, there will be 5 random prizes still on the board. These 5 prizes will be combined with a Main Prize and given away in a random drawing. To be a part of this drawing, one must have purchased packs from at least 5 rounds. Receive an entry for every 5 pack rounds played.
